GOVERNOR

The constitution of 1776, which remained in force until 1844, did not provide for an annual message by the Governor. Messages, usually on a specific subject, were occasionally submitted to the Legislature at the beginning of the session, but the first to have the appearance of an "annual message" was that of Gov. Vroom in Jan., 1830. In Feb., 1830, a joint resolution was passed making it the duty of the Governor to address a message to the Legislature at its annual meeting in October. This custom was adhered to, with the exception of 1836, until the adoption of the constitution of 1844, which required the Governor at the opening of each session of the Legislature to submit a message on the condition of the state, [etc.]. The more important of the early [optional] messages are listed below in the serial group.

1805-1904. [Message of the Governor of the state of N. J.]

Wm. Stainsby, chief of bureau of statistics
1901. Trenton, 1901. 302 pp., map.
Issued as a special publication; its regular issue of late years has, however, seemed to warrant its entry as a serial. In the introduction of the volume published in 1909 it is stated that "The first and second editions of the Industrial Directory were published respectively in 1901 and 1906; the present volume bears the date 1909, ... and hereafter the book will, after thorough revision, be published every third year unless public interests should seem to require and the means at the disposal of the bureau shall permit its being issued at briefer intervals." A fourth edition and third revision was published in 1912.

INSURANCE—cont'd

Life Insurance—cont'd

1876-1890. Tables: no. and amt. of life insurance policies outstanding at beginning and at end of yr. (*Same* 1876 pt. 2 (pp. 137-138)—*same* 1890.)

The table rel. to insurance in general is discontinued from 1881-1890.

1876-1891. Table: aggregate life business in state since organization of insurance dept. (A.R. comr. banking and insurance rel. to life, etc. 1891 pt. 2: x.)

——. Table: ordinary life business each yr.; policies issued each year and in force at end of each year, premiums recd. and claims paid. (*Same* 1891 pt. 2: ix.)

Oct. 19, 1816, seven lots aggregating about 300 acres were conveyed to the state by the Society for Establishing Useful Manufactures at Paterson. In 1833 and 1834 small lots were sold to the First Presbyterian Church and to St. Paul's Church. Under act of March 2, 1839, Wm. Brittin, Andrew Parsons, Wm. Stites, L. Q. C. Elmer and Joseph Saunders were apptd. to take charge of the state lands at Paterson; they were authorized to lease lots, open streets and to sell lands at public auction; the atty. gen. was empowered to make deeds of conveyance; monies and securities recd. were to be paid to the treasurer and by him added to the school fund. All of the lands were finally disposed of under the provisions of act of March 25, 1852, authorizing and directing the trustees of the school fund to sell them at public or private sale and invest the proceeds for the benefit of the school fund.

MILITIA

Only an occasional report of the quartermaster-general was found before 1838, and but few of the adjutant general's before 1846, though the act of Feb. 16, 1811, establishing a militia system, made it the duty of the adj. gen. to lay an abstract of returns from officers of divisions, brigades, etc., before the commander-in-chief of the state [the Governor] who was required to lay the same before the legislature; the adjutant general was also required to make a return of all the militia of the state to the president of the U. S. and to lay his accounts before the legislature at their annual sitting. The same act required the quartermaster-general to lay his accounts annually before the legislature.

There is a record of one report made before the passage of the act of Feb., 1811. Gov. Bloomfield in a message dated Oct. 22, 1805 (Votes of Assem. Oct. 1805: 371-372) transmitted a rept. of adjutant general Hunt "although no law exists requiring it." The rept. is not printed in the Journal.

MINES AND MINING—cont'd

non-serial

1855. Mining: exploring for ore, open workings, underground workings, timbering, extraction of ore, hauling and hoisting, drainage. (2 A.R. geol. survey 1855: 234-246.)

1867. Mining interests prospering; tons of ore mined. (Govs. mess. (Ward) Jan. 18 [i. e. 8], 1867: 16 or 20.)

There are two editions of this message.

1868. Triassic formation: rocks. (Geology of N. J. 1868: 206-225.)

Sandstone, conglomerate, shale, basalt, trachyte; minerals (copper, manganese, barytes, mountain leather, trappean minerals).

——. Misc. products: sulphate of baryta, barytes or barite; graphite, plumbago or black-lead; manganese; molybdenum; greensand for chemical uses; iron pyrites. (*Same* 1868: 709-713.)

1872. Boring as mode of searching for minerals. (A.R. state geologist 1872: 24-26.)

1878. Statistics: mining statistics; greensand marl (trade and statistics). (*Same* 1878: 113-121.)

1885. See Geology, the general group, this date.

1887-1888. Recommendations rel. to mines; hoisting shafts should be inclosed to prevent anything falling by coming into contact with ladder-ways. (5 A.R. inspector of factories, etc. 1887 (p. 15)—*same* 1888.)

1887-1888. Rept. on general condition of mines investigated and accidents investigated. (5 *same* 1887 (pp. 49-52)—*same* 1888.)

1889. Catalogue of minerals found in N. J.; by Fredk. A. Canfield. (v. 2, pt. 1. Final rept. state geologist 1889: 3-24*b*.)

1893. Minerals of N. J., with notes on mineral localities. (A.R. state geologist 1893: 423-442.)

Gold, silver, copper, lead, zinc, iron, iron ores, iron minerals, manganese, nickel, arsenic, molybdenum, graphite, plumbago, black lead, coal, peat, quartz, garnet, zircon, asbestos, tripolite-infusorial earth, talc, serpentine, apatite, barite-barytes, calcite, magnesite, siderite, granite, gneiss, marble, limestone, sandstone, freestone, conglomerate and sandstone, flagging-stone, slate, hydraulic limestone, cement rock, limestone for lime, clays, sand, road materials (trap-rock, yellow gravel), fertilizers (limestones, marls, peat, etc.), gem stones.

Clay; see Industries. Pottery, etc. Clay

Commissioner of Mines

See also above, the serial group; also below, Laws.

1893. Office of comr. of mines created by act of 1892; no provision made for expenses of supervision; no. of mines in state, no. of employes; recommendations of comr. for increasing safety to miners. (Govs. mess. (Abbett) Jan. 1893: 49-50.)

1896. Office of comr. of mines abolished by act of 1894; duties transferred to inspector of workshops and factories. (*Same* (Werts) Jan. 14, 1896.)

Copper

1863. Copper mining has been found unprofitable in state but expenditure of large sums of money has made it of general importance. (Rept. geol. survey 1863: 13.)

1864. Conglomerate on top and west slope of Blue Mountain with Medina sandstone lying upon and northwest of it is said to contain lead; copper mine has been opened in township of Pahaquarry; sandstones and limestones northwest of Blue Mountain in Valley of the Delaware furnish good building materials, etc. (A.R. state geologist 1864: 10.)

——. On copper mines. (*Same* 1864: 19.)

1868. Copper ores. (Geology of N. J. 1868: 675-680.)

Localities; mines.

1870. Additions to scientific and economic geology of state. (A.R. state geologist 1870: 55-63.)

Copper ores of N. J., etc., etc.

MINES AND MINING—cont'd

Copper—cont'd

1873. Copper ores common in red sandstone rocks of N. J.; mining not profitable in present condition of metallurgy of copper. (*Same* 1873: 98-99.)

1876. Copper ores; mines all idle; ores not very promising. (*Same* 1876: 51.)

1881. See below, Iron, this date.

1883. Copper ores; mines at Somerville, Belleville, Flemington, Griggstown and New Brunswick. (A.R. state geologist 1883: 164-166.)

1899. Notes on copper [and zinc] mines; by H. B. Kümmel. (*Same* 1899: 171-175.)

Notes on individual mines.

1900. On copper mining in N. J. (*Same* 1900: xxvi-xxvii.)

——. See above, Iron, this date.

1901. See same, this date.

1902. Copper deposits of N. J.; by W. H. Weed. (*Same* 1902: 125-139.)

Published by permission of director of U. S. Geol. Survey.

1903. See below, Iron, this date.

Belleville

1719. Copper mines at Belleville discovered. (Rept. geol. survey 1863: 3.)

New Brunswick

1748. Copper mines at New Brunswick discovered. (Rept. geol. survey 1863: 3.)

Somerset County

1874. Copper ores near Warrenville, Somerset Co.; description of mine; abundance of copper in ores of trap and red sandstone distr. (A.R. state geologist 1874: 32-33.)

Gold

1868. See below, Lead, this date.

1873. Gold and silver ores; no silver found in any ores; repts. of finding silver false; gold in small quantity found in iron pyrites of Blue Mountain in Sussex and Warren cos.; unlikely that gold in paying quantities will ever be found. (A.R. state geologist 1873: 99.)

Inspection

See also, Geology. Laboratory.

1891. Additional officer for dept. designated as mine inspector. (9 A.R. inspector of factories, etc. 1891: 8.)

1892. Apptmt. of mine inspector recommended by inspector of factories, etc. (Govs. mess. (Abbett) Jan. 12, 1892.)

Iron

1873-1885. Table: percentage of the whole no. of blast furnaces [in the U. S.] in operation each year. (8 A.R. bureau of statistics of labor and industries 1884/5: 297.)

NEW JERSEY

1790-1885. Table: output of iron mines at intervals. (8 A.R. bureau of statistics of labor, etc. 1884/5: 290.)

1790/1874-1790/1904. Table: iron ore mined in N. J. in 1790, 1830, 1855, 1860, 1864, 1867, 1871 and subsequent years. (A.R. state geologist 1874 (p. 65)—*same* 1904.)

Omitted, 1875-1880, 1882-1883, 1895; 1870 also given in all repts. excepting 1874.

1817. Rept. of committee (Kitchell) on portion of Govs. mess. rel. to mnfre. of bar iron in state. (Votes of Assem. 1816/7: 96.)

1830-1880. Mining statistics: iron ore mined in 1830, 1833 and 1880; zinc in 1880; minor materials in 1880; values given in 1880, incl. bldg. stone. (A.R. state geologist 1880: 207.)

MINES AND MINING—cont'd

Iron—cont'd

NEW JERSEY—cont'd

1836. Primary region of state (i. e. Highlands): blue limestone formation, red conglomerate, primary rocks and metalliferous veins (mica, felspar, quartz, hornblende, magnetic oxide of iron), description of iron ores, regions where found. (Rept. geol. survey 1836: 123-143.)
Paging from 2d ed.

1840. Abundant supply of iron indicates an era as a mnfg. distr. for N. J. (*Same* 1840: 36.)
Paging from ed. of 1840.

——. Primary rocks of state—geology of the Highlands. (*Same* 1840: 12-43.)
Paging from ed. of 1840. Composition and structure, geographical extent, nature of ore (iron mingled with hornblende, felspar, quartz); local details (Pompton township, Bergen Co., Blue mine, Mule, Cannon, Spanish Hope and Good Hope mines, Ringwood, region betw. the Pequannock and Succasunny, Muir, Sweed, Hibernia, Jackson, Dickerson, Denmark, Mount Hope, Mount Hope Blue, Teabo, Mount Pleasant, Harvey, Sterling and Burwell mines, Drakestown, Hacketstown, Musconetcong, Scott's Mountain in Warren Co., Oxford Furnace); chemical composition of magnetic iron ores of the Highlands, analyses; gneiss formation of Trenton.

1855-1863. Growth in product of iron ore in N. J. (*Same* 1863: 9.)

1856. Geological occurrence and properties of iron ores. (3 A.R. geol. survey 1856: 11-17.)

——. Metallurgy of iron ores; Catalan forge; charcoal blast furnace; anthracite blast furnace; results from use of different methods at various mines. (3 *same* 1856: 17-30.)

——. Extr. from paper on "statistics and geography of production of iron"; by A. S. Hewitt of Trenton. (3 *same* 1856: 32-38.)

1863. Iron ores mostly carried out of state to be worked; coal could as cheaply be brought to the ore. (Rept. geol. survey. 1863: 10.)

——. Iron ores in N. J. (*Same* 1863: 11-12.)

1863-1864. Amt. of iron transported on Morris Canal. (A.R. state geologist 1864: 19.)

1864. Black oxide of manganese discovered betw. Clinton and Clinton Station; used in mnfre. of bleaching powders. (*Same* 1864: 7-8.)

——. Magnetic iron ore in Highland Range; mines. (*Same* 1864: 10-13.)

1866. Work of geol. survey; iron ore region in Morris Co. (Govs. mess. (Parker) Jan. 9, 1866: 14.)

1867. Production of iron and zinc ore. (Rept. state geologist 1867: 16.)

[1867?] Map of azoic and paleozoic formations, incl. iron ore and limestone distrs. 36 in. x 23¼ in. Scales: map, 2 mi. = 1 in.; sections, horiz. 2 mi. = 1 in., vert. 1000 ft. = 1 in. (In portfolio acc. Geology of N. J., 1868.)
Some copies of this rept. are not accompanied by the portfolio.

1868. Mines of iron and zinc in N. J.; yield and value. (Govs. mess. (Ward) Jan. 14, 1868: 16.)

——. On growth of iron mnfre. in N. J. since 1790. (Geology of N. J. 1868: x-xi.)

——. Ores. (*Same* 1868: 532-668.)
Magnetic iron ores; description of iron mines.

1869. Iron ores: mining of magnetic iron ore; encouraging results from Chester, Morris Co.; methods of reducing the ore to iron; hematite ores. (A.R. state geologist 1869: 51-56.)

1870. On the iron and zinc ores of N. J. (*Same* 1870: 55.)

1871. Iron ores and mining; magnetic iron ore; hematite; zinc ore; arsenical ore; Canfield's phosphate of lime and iron-ore bed. (*Same* 1871: 30-38.)

1872. Iron ores: magnetic iron ore; hematites. (*Same* 1872: 16-24.)

MINES AND MINING—cont'd

Iron-cont'd

1872-1884. Table: statistics of an iron establishment: ann. product in tons, gross value, sum paid for labor, etc. (8 A.R. bureau of statistics of labor, etc. 1884/5: 317.)

1873. Iron mines of the Ramapo belt: location, description, age, product, etc. (A.R. state geologist 1873: 24-28.)

——. Iron mines of the Azoic region beginning with 1685; product in 1821, 1831, 1855, 1864, 1867, 1871, 1872, 1873; value of product of 1873. (*Same* 1873: 21-22.)

——. Individual iron mines of the Passaic belt: location, description, nature of ore, etc. (*Same* 1873: 28-55.)

——. Labors of geol. survey in 1872 directed mainly to iron ore region; estimated production and value of mines; apprn. exhausted; recommended that it be continued for four years longer. (Govs. mess. (Parker). Jan. 14, 1873: 22-23.)

——. Iron mines of Musconetcong belt: location, description, etc. (A.R. state geologist 1873: 55-72.)

——. Iron mines of Pequest belt: location, description, etc. (*Same* 1873: 72-88.)

——. Hematite iron ores: Pochuck mine, Cedar Hill or Ten Eyck mine, Beattyestown mine, German Valley, Carpentersville, New Village, Shiloh, Bird. (*Same* 1873: 88-90.)

——. Searching for new beds of iron ore; magnetic and hematite ores. (*Same* 1873: 90-97.)

——. Analysis of hematite ore from Bird mine near Clinton. (*Same* 1873: 119.)

1874. Iron mines in northern N. J.: list of mines in the different belts, by counties; notes upon new mines. (*Same* 1874: 12-29.)

——. Quantity of iron ore mined in state; product will soon be vastly increased. (Govs. mess. (Parker) Jan. 13, 1874.)

——. Hematite iron ores: list of mines; new mines. (A.R. state geologist 1874: 29-32.)

——. Searching for new beds of magnetic iron ore. (*Same* 1874: 34-40.)

——. Searching for hematite iron ore. (*Same* 1874: 40-42.)

——. Native iron in trap rocks; specimens found in Greenland and Liberia. (*Same* 1874: 56-57.)

1875. Approximate production of iron; several new mines opened. (Govs. mess. (Parker) Jan. 12, 1875.)

——. Depression in mining industry; iron mining; demand for Bessemer ores; treatment of different ores. (A.R. state geologist 1875: 38-41.)

1876. Iron ore; effect of depression in iron mnfre. on mining industry; practicability of surveying to discover Bessemer pig metal. (*Same* 1876: 50-51.)

——. Misc. notes and analyses: magnetic iron ore from Warren, Sussex, Passaic, Morris cos.; nickel and cobalt from Morris Co.; magnesian limestone, Warren Co.; infusorial earth in Sussex Co. (*Same* 1876: 52-56.)

1877-1885. Table: average weekly capacity of furnaces in blast, each year. (8 A.R. bureau of statistics of labor, etc. 1884/5: 298.)

1879. Statistics: iron ore; zinc ore; clays and brick; greensand marls; lime. (A.R. state geologist 1879: 161-176.)

——. Exploring for new beds of iron ore. (*Same* 1879: 94-102.)

——. List of iron mines in N. J.—with notes. (*Same* 1879: 36-93.)

1880. Iron ores. (*Same* 1880: 98-130.)
List of mines; notes on new mines and iron ore localities.

——. Statistics of iron ore, clay and marl. (*Same* 1880: 180-184.)
Iron ore, zinc ore, clays and brick, green-sand marl.

MINES AND MINING—cont'd

Iron—cont'd

1880. Table: iron and zinc ores mined, variety of mnfre., no. of months at work, tons mined, periods of payment of wages, no. of employes owning real estate, total payment for labor, total value of products, etc. (3 A.R. bureau of statistics of labor, etc. 1879/80: 106.)

1881. Several new iron mines opened in 1880. (Govs. mess. (McClellan) Jan. 11, 1881.)

——. Statistics: iron ore; zinc ore; clays and brick; glass sand—glass statistics; green-sand marl. (A.R. state geologist 1881: 75-81.)

——. Ores of iron and other metals. (*Same* 1881: 33-40.)
Iron ores; notes on mines and mine ores; copper ores.

1882. Statistics of ores, clays, clay products and lime. (*Same* 1882: 172-174.)
Iron ore, zinc ore, clays, bricks, limestone.

——. Specific state industries; anthracite blast furnaces. (5 A.R. bureau of statistics of labor, etc. 1881/2: 358-360.)
No. of blast furnaces in state, information about individual furnaces (obtained from Directory of Iron and Steel Works of the U. S. by James M. Swank); table resp. operation of furnaces.

——. Specific state industries; iron mines. (5 *same* 1881/2: 353-357.)
Counties included in iron bearing distr.; comparative production at intervals, 1790-1874; tabular statistical stmt. resp. iron mines in 1882, period in operation, employes, value of production, etc.

1883. Iron and zinc mines have continued yield and a no. of valuable mines have been opened. (Govs. mess. (Ludlow) Jan. 9, 1883.)

——. Statistics. (A.R. state geologist 1883: 170-172.)
Iron ore, zinc ores, clays, bricks, lime.

——. Native iron in Raritan township, Middlesex Co. (*Same* 1883: 162-164.)

——. Exploring for magnetic iron ore and locating mines. (*Same* 1883: 147-158.)

——. Iron mines. (*Same* 1883: 78-146.)
Notes on mines with list of references made to each mine in former repts.

——. Archaean rocks and iron ore. (*Same* 1883: 27-77.)
Geographical extent and surface features; rocks; magnetite, magnetic iron ore; geol. structure.

1884. Iron mines and mining industry: iron ore; list of mines, with notes and reference to former repts.; zinc ore. (*Same* 1884: 70-111.)

——. Statistics of iron and zinc ores. (*Same* 1884: 151-152.)

1885. Anthracite blast furnaces; history in N. J. (1742-1885); tabular stmt. of returns for 1885; showing when wages are paid, no. of tons of iron made, employes, months in operation, value of product. (8 A.R. bureau of statistics of labor, etc. 1884/5: 295-302.)

——. Iron and zinc mines in N. J.: operations during year; hist. review; tabular stmt. of returns from 40 companies, stating frequency of payment, output of ore, no. of employes, hours, wages, months in operation, value of product. (8 *same* 1884/5: 289-294.)

——. Table: proportions of American blast furnaces using anthracite coal as fuel; Mass., N. Y., Penn., N. J., Md. (8 *same* 1884/5: 297.)

——. Iron mining: magnetite mines; hematite mines. (A.R. state geologist 1885: 97-107.)
Notes on individual mines.

1886. Economic geology. (*Same* 1886: 135-210.)
Iron and zinc ores—notes on individual mines; hematite mine on Marble Mountain, Warren Co.; greensand marls (geographical extent, age, etc.); clay marls (description, localities, marl beds); marl and clay layer; red sand bed; middle and upper marl-beds; composition of greensand marls; analyses; use of marl (agric.).

MINES AND MINING—cont'd

Iron—cont'd

1887. Geologic surveys; deposits of iron and zinc ores, etc. (*Same* 1887: 20-23.)

1889-1894. Table: iron ore in N. J.; rank as a producer; production in tons, valuation, stock on hand, Dec. 31. (*Same* 1894: 287.)

1890. Map of N. J. showing principal iron mines. Scale: 1 in. = 5 mi. (*Same* 1890.)

——. Iron mines; by Frank L. Nason. (*Same* 1890: 51-127.)
Notes on active mines; rocks associated with iron ores; position of ore-bodies in rock; searching for magnetic iron ores with a miner's compass; list of iron mines, with references to notes in repts. of geol. survey.

1891. Notes on active iron mines; by G. E. Jenkins. (*Same* 1891: 235-249.)

1895. Letter from John Birkinbine on iron ore production in N. J. (*Same* 1894: 287-288.)

1895-1903. The iron ore mining and smelting industries in N. J. (27 A.R. bureau of statistics of labor, etc. 1903/4: 237-248.)
Narrative rept. followed by tables, showing the market value of the product each year, yearly earnings per employe, etc., surplus after paying expenses.

1896. Rept. on iron-mining with notes on active mines; by Geo. E. Jenkins. (A.R. state geologist 1896: 319-334.)

1897. Supplemental notes on mining industry of N. J.; by Geo. E. Jenkins. (*Same* 1897: 317-323.)
Iron and zinc mines.

1898. Rept. on iron-mining industry [and zinc mines]; by G. E. Jenkins. (*Same* 1898: 232-237.)
Notes on individual mines.

1899. Rept. on iron [and zinc], mines; by G. E. Jenkins. (*Same* 1899: 149-170.)
Notes on individual mines; analyses.

1900. The mining industry; by H. B. Kümmel. (*Same* 1900: 197-213.)
Iron, zinc and copper mines.

1901. Same; by H. B. Kümmel. (*Same* 1901: 133-161.)
Iron, zinc and copper mines.

1902. The iron and zinc mines; by H. B. Kümmel. (*Same* 1902: 113-123.)

1903. The mineral industry; by S. H. Hamilton. (*Same* 1903: 97-112.)
Iron mining [and mines]; zinc mines; copper mining.

1904. The mining industry; by H. B. Kümmel. (*Same* 1904: 291-302.)
Iron mines; zinc mines.

Bergen County

1836. See below, Warren Co., this date.

Monmouth County

1720. Iron was made in Monmouth Co. before 1720. (Rept. geol. survey 1863: 3.)

Morris County

1700. Iron was made in Morris Co. shortly after year 1700. (Rept. geol. survey 1863: 3.)

1868. Map of group of iron mines in Morris County, made under the direction of G. H. Cook. Surveyed and drawn by G. M. Hopkins. (23⅛ in. x 25½ in.) Scale: 3 in = 1 mi. (In portfolio acc. Geology of N. J., 1868.)
Some copies of this rept. are unaccompanied by the portfolio.

1883. Morris Co. first co. in state in mineral wealth; iron ore. (11 A.R. bd. agric. 1883: 332.)

1887. Investigations made of mines in Morris and Sussex cos. rel. to safety and protection to employes. (5 A.R. inspector of factories, etc. 1887: 14-15.)

PUBLIC HEALTH—cont'd

NEW JERSEY

The first ann. rept. of the state board of health 1877 (pp. 6-8) summarizes the efforts in New Jersey in behalf of public health, in substance, as follows; appointment of a state sanitary commission in 1866; no investigating legislation in respect to public health from 1868 to 1873; appointment of a commission in 1874 which was practically a board of health but limited to one year; in reference to the work of that commission, among other things, it is stated that one of the results was a sanitary convention in October, 1875, which led to the formation of the New Jersey Sanitary Association; formation of a state bd. of health in 1877.

B

1 series

It will be noted that the circulars in this series are not arranged in exact chronological order; this is due to the desire to retain the numerical order of the circulars on account of reference to that order in reprints, special lists, etc. Numbers were first assigned to the circulars in a list printed in the 6 ann. rept. of the state bd. of health 1882: 253-255; the arrangement seems to have been entirely arbitrary, probably following the order in which they appear in the annual reports of the Board; for example, Circular No. 7 is dated June 1, 1880; Circular No. 10, April 1, 1880.

[1878]-1883. Circulars issued by the state bd. of health.

United New Jersey R.R. and Canal Co.

Under a certificate of the secretary of state, May 18, 1872, the Delaware and Raritan Canal Co., the Camden and Amboy R.R. and Transportation Co. and the N. J. R.R. and Transportation Co. were authorized to adopt the corporate name of United N. J. Railroad and Canal Co.

The Camden and Amboy R.R. was incorporated in 1830, the Delaware and Raritan Canal the same year; they were consolidated by act of Feb., 1831, becoming the "Joint Companies." In 1836 the joint companies gained control of the Phila. and Trenton R.R. and in 1867 entered into an agreement with the N. J. R.R. and Transportation Co.; henceforth the "United Companies."

Uncommon with the app. (187 pp.). One of the longest of the early investigations into working of r.rs. in America. The charges made by the author of the pamphlet who signed himself "A citizen of Burlington" [i. e. Henry C. Carey] were that the accounts for the whole system had been falsified. The New York Public Library has a copy of this rept. containing 79, 102 pp. It has also an edition of the communication from "A citizen of Burlington" entitled, Review of the late comrs. for investigating the affairs of the joint cos. Philadelphia: L. R. Bailey, 1850. 78 pp. The only complete copy seen was in the N. J. Hist. Socy., Newark. The 79 pp. division was also seen in the State Library, Trenton. 3000 copies were ordered prtd. (Minutes of Assem. 1850 : 559-560.) The comrs. were Aaron Robertson, James S. Hulme and A. Wurts.
